Khanyisa Back To School Project

Chairman's Weekly Report

Here are students on computer lab Thandi Gugu Vilakazi and Prudence Sikhosana from Learn It on-Demand Business College in Bethal

The countdown to the gala dinner of the grade 12 top achievers of Gert Sibande is underway. I sincerely would like to remind grade 12 learners in the district that this June examination is the most important one in history because the same results will determine the top 50 giants that will be the ambassadors of their respective schools in the district.

These top 50 students will be joined by country's top leadership during the gala dinner that is set to be held on 12 October 2012 in Get Sibande District Municipality Hall to psychologically prepare them for the final examinations. Khanyisa spoke to Thandi Gugu Vilakazi and Prudence Sikhosana

from Learn It on-Demand Business College in Bethal; they said that the gala dinner event is their destination. “We will try and work extremely hard,” said the above mentioned students respectively because they want to get at least seven distinctions each at the end of the year. We also would like to humbly urge all Gert Sibande District Secondary School Principals to partner with Khanyisa Back To School in improving grade 12 pass rate in the district which will eventually have effects on the provincial pass rate. We further urge the principals to ensure the availability of 20 copies of Khanyisa Newspaper at their respective schools, which entails all the information in relation to

Khanyisa Back To School on page 9. The copies are all packaged in A3 envelopes and arranged according to their respective circuits and sent to the District Department of Education and they are placed at respective pigeon holes from which the various circuits will have to collect. They are available from the district as from Friday every week. This is the day where student match for their rights to freedom of education in our country, where we see hero's of the nation. We respect this day with many ways that's why we call it youth day, this is the day of comrades youth to perform.

We might not know into details but we must respect what we know as people were suffering to find freedom. And this is the day were we will insist to the youth that we must go back to school because we

are not struggling when it become to study our sisters and brothers passed that bridge for us. As the father of the nation ubaba umadiba said imfundo it's a powerful weapon that we can use in the world, let's study hard.

We are living in a free country now just because they where fighting for us as their upcoming new generation. Long live the spirit of freedom fighters long live. Here are coming those moments of reconciling with the spirits of those who died june 16 for freedom. On our way back they have experience many things ukuqindezelwa ngokwebala and many more, but they did fought back for our freedom.

Let's respect that and respect the word from our form president nelson mandela as a father of freedom fighters and use our powerful weapon.

As we are learning from them let us take the moment of respect those fighters, people who fought for our freedom. Remember those freedom fighters, abo walter sisulu, chris hani and many more, may their soul rest in peace and those who still alive like nelson rolihlahla mandela talking of dom pass as a student, I admire izingane zomama with their parent those people who fight for identity passport and those people are really freedom fighters.
